COLORFUL DIVERSITY

The colored valve range of the Zehnder Design Line

COMING
SOON!!

The colored valve range of the Zehnder Design Line

With Zehnder's variety of colors, there are virtually no limits to creative freedom. Zehnder decorative radiators are available in almost every conceivable color and surface. For perfect color coordination and a particularly harmonious complete ensemble, there is now also a colored valve range for Zehnder bathroom radiators.

Various valve sets, fittings and the thermostats of the Zehnder Design Line, which were previously only available in white, chrome or stainless steel, are now also available in the respective radiator color on request.

This not only ensures a harmonious, uniform look in the bathroom, but also enhances the entire room owing to the overall aesthetic appearance.

The colored valve range of the Zehnder Design Line includes fitting types O, P, Q as well as the valve set type B and the Zehnder thermostat Design Line.
