Colours as an expression of our personality

From our choice of clothing to our living environment. Colours allow customers to create their ideal individual style & space. Zehnder has recognised and responded to these new expectations and demands. The new Zehnder colour system gives your customers every option to perfectly coordinate the colour of their radiators with the latest interior design trends, seamlessly integrating them into any environment.

Future-oriented colours in unique colour worlds – developed with colour experts

The future of colours and aligning with today and tomorrow's trends is important to Zehnder, that's why the expertise of renowned colour trend experts was drawn on during the concept development. Long-term trends in six areas: architecture, interior design, bathrooms, living spaces, surfaces and materials were analysed and integrated into the concept, culminating in a future-oriented colour palette. Five modern Zehnder colour worlds were derived from these colour and living trends to ensure that the system always remains up to date and that the balance between fashions and long-term trends is maintained.

The Sanctuary

The home as a place of rest,
relaxation and retreat

The home is a place of relaxation and tranquillity.

Rough surfaces, brushed finishes, mixed glazes and natural materials create sanctuaries.

Natural off-white, light brown and grey tones are the key to a cosy environment to relax in. Brushed metals such as brass mixed with wood create a modern contrast. Round shapes and soft textures soften any feeling of austerity.

The Mystical Home

A private place for personal rituals and wellness

Rough, natural surfaces contrast with refined designs. Rough concrete textures mixed with polished stone surfaces create a multi-sensory experience. Black and dark grey shades, graphite and taupe are the key to a mystical home. The monochrome rooms are accentuated by dark blue tones and brushed metal. The muted colour palette is made for a tranquil space for personal rituals and wellness.

Neo Green

Reflections on our desire for a natural environment

Green tones create a balance with our desire for more nature in our lives. Walls and floors, but also textiles and décor appear in shades of green. Soft, delicate mint or petrol-coloured graphite reflect our desire for a natural environment.

Nude, light brown and grey tones create harmony and calm.

Mother Earth

Terracotta as a symbol for a warm and earthy look

Terracotta helps to create an earthy and warm look, both as a material and as a colour. The highly pigmented quality of terracotta and the deeply saturated but sun-faded solid colours create a natural and sophisticated look. Shades like cotton white, ochre, brick red and brown are combined to create an earthy colour palette. Terracotta is symbolic of the earth we live on and our strong desire to protect it.

Mono Material Concrete

The continuity of space –
raw, seamless, expressive

The use of a single material creates a seamless, uniform look and a quiet space – free from visual noise. Raw concrete flows from the interior to the exterior, giving continuity to the space. Eccentric orange and natural brown tones create a modern contrast. Home accessories in brushed metal are ideally combined.
